The image shows a large, wall-mounted touch-screen display. The screen is divided into two main sections. The left section displays a 3D perspective view of a tablet computer with a green background and several colorful images. The right section features a dark background with a grid of blue icons, each with a white symbol and a label below it. The icons represent different functions: a paperclip for 'News', a magnifying glass for 'Companies', three people for 'Persons', a room for 'Rooms', a clock for 'Events', a triangle for 'Time table', a document for 'Ads', and a magnifying glass for 'Search'. At the top of the right section, the time '13:07' and date 'Wednesday, 25.05.2011' are displayed. In the top right corner of the screen, the '3M powered by a-design' logo is visible. The screen is mounted on a wall with a red and white border. A man in a dark suit is seen from the back, looking at the screen.
